PRELIMINARY AMENDMENT

Technology Center 2100

Preliminary to the examination of the above-captioned application, please make the following amendments:

In the specification:

On page 1, before the first paragraph, please insert the following new paragraph:

-- This application is a section 371 national phase application of PCT Application

No. PCT/SE98/01468 filed August 14, 1998. --

In the claims:

Please cancel claims 1-14 and add claims 15-28 as follows:

B1

A method for characterizing samples comprising the step of using a 15. (new) monitoring technique to characterize a sample, or pair of samples, such that a multidimensional response is generated according to

$$I(\alpha, \beta, \gamma...) = \sum_{i=1}^{r} c_{i} I_{i}(\alpha) I_{i}(\beta) I_{i}(\gamma).$$

where the number of data points in each dimension are at least two

$$\alpha_1, \alpha_2 ... \alpha_l \ l \geq 2$$

$$\beta_1, \beta_2...\beta_m \ m \ge 2$$

$$\gamma_1, \gamma_2 ... \gamma_n \quad n \geq 2$$

Cert. under 37 CFR 1.8 then dimensional responses of the components, $\widetilde{I}_i(\alpha)$, $\widetilde{I}_i(\beta)$, $\widetilde{I}_i(\gamma)$... are herein are being deposited with the United States Postal Servicea with ated sufficient postage as first class mail and addressed to Assistant Commissioner Washington, D.C. 2023 f on
